The trusted diesel tractors

For every job, we have a Knecht for you. Since 2006, we have been offering powerful, versatile, and reliable tractors that meet the diverse needs of various sectors.

Powerful performance: Diesel tractors deliver impressive power, ideal for heavy loads and intensive tasks, whether you work in horticulture, sports, or urban environments.

Versatility: Thanks to their compact size, agility, and tight turning radius, these tractors are perfect for confined spaces. With a wide range of attachments, they can be used for a variety of tasks.

Reliability: Our diesel tractors are built for consistent, long-term use, ensuring maximum productivity and minimal downtime.

Easy maintenance: With simple maintenance, you save time and costs, ensuring your Knecht tractor is always ready for the next job.

KNEGT FRONT LOADER

In addition to all the standard options, the diesel tractors can also be equipped with a front loader from Stoll. Stoll has a solid reputation as one of the world's best front loader manufacturers. Equipped with parallel guidance, quick-change system, and a control panel with a 3rd function* (*optional), the Stoll front loaders are a true pleasure to work with. Thanks to specific cylinder technology, the front loader responds very quickly. The loader bucket is supplied with the front loader. A wide range of accessories is available for these front loaders, such as a bale clamp, manure grab, or pallet forks.

The Knekt **304G2** can load up to 500 kg with the Stoll front loader, the Knekt **404G2** can handle 600 kg, and the Knekt **504G3** can lift 800 kg without a counterweight.
